SUMMARY

Aspiring software developer with a knack for building user-friendly solutions, from smart expense trackers to AI-powered tools. Comfortable working across the stack with technologies like JavaScript, Django, and Tailwind. Known for quick learning, adaptability, and a genuine interest in making technology accessible and impactful.

EDUCATION

- 2024–2028
  B.E. Computer Science Engineering, Chennai Institute of Technology   **(CGPA: 8.81)**
- 2024
  HSC, AKT Memorial Vidya Sakket School   **86%**
- 2022
  SSLC, St. Antony's Public School   **92%**

WORK EXPERIENCE

Kaizenspark Tech Solutions - Front End Development Intern   **May 2025 - June 2025**

- Gained hands-on experience in real-world software development projects, applying problem-solving and coding skills to deliver client-focused solutions.

Tech Superstar Official – Web Platform

- Built and maintained a responsive website to showcase tech content and updates, ensuring smooth user experience across devices.

PROJECTS

SmartSlot AI Hospital Queue System

- Developed a React-based hospital queue management platform with role-based authentication for patients, staff, and administrators using Firebase Authentication and Firestore.
- Integrated real-time smart slot allocation and notifications, reducing patient wait times and improving hospital workflow efficiency. Link: https://smart-slot-two.vercel.app

Outpass Management System

- Designed and developed a full-stack web application with role-based dashboards (Student, Staff, Warden) using Django and SQL, enabling smooth request and approval workflows.
- Automated the outpass approval process with QR code generation and real-time status tracking, reducing manual effort and improving campus efficiency. Link: https://outpass-01.vercel.app

Real-Time Wildlife Monitoring System

- Built an AI-powered system to analyze uploaded images and detect endangered species in real time, integrating machine learning with React for a user-friendly interface.
- Implemented a conservation alert feature that provides instant information on species status, supporting awareness and proactive wildlife protection.

ACHEIVEMENTS

- Selected as **Top 10 Teams in All India Developers** Challenge Hackathon
- Completed **90+ contributions** in Github
- Solved **200 Problems** in Leetcode
- Practiced **CISCO - Introduction to Networks** Course
- Consistently Mainited **8 CGPA**
- Certified in **SQL Essestial Training**

SKILLS

Technical Skills

- React.Js
- Firebase
- Tailwind CSS
- Machine Learning
- Git and Github
- Streamlit

Soft Skills

- Problem Solving
- Teamwork
- Time Management
- Adaptability
- Communication
- Enthusiastic learner
